

Strategic directions 2025-2027

Mission statement

Teaching the love of Christ to inspire hearts and minds for a fulfilling life and a better world.

Vision statement

We are a Christ-centred R-12 college, inspiring students to find their passions and flourish as future-ready, planet-sensitive, ambitious and compassionate learners.

Strategic directions

Holistic educational experience

We nurture and support our students' academic, spiritual, social, emotional and physical talents to thrive as future-ready learners through evidence-based excellence in contemporary learning.

Flourishing community culture

We build a strong sense of belonging through partnerships within our college, including past and present students; families and staff; and the broader community.

Actively spirit and planet sensitive

We equip and empower our community to show and experience the love of Christ, to be responsible stewards and socially just advocates for this God-given planet and those living in it.

Thriving operational systems

We plan, build, grow and maintain governing, financial and operational systems that support the sustainability and growth of the college as a leading educational entity in the Fleurieu region.
